Features:

- Stylish outlook that looks great in any home and is designed to complement existing home devices.
- Optimized for digital reception - receives Digital Terrestrial TV broadcasts within a 35-45 mile radius.
- Unique omni-directional design that receives all locally available Freeview channels.
- Simple plug and play setup and operation.
- 1.5m RF (Coaxial) lead allows ideal placement away from nearby devices causing interference.

Connection and operation:

[Fig.1] Directly connected to TV

[Fig.2] Directly connected to terrestrial set-top box

1. First connect the aerial's coaxial lead either directly to the back of your Digital TV or Terrestrial set top box.
2. Place the aerial in your desired location, for the best reception try and position as high as possible and away from large power consuming devices such as air-conditioning units, elevators, microwave ovens, hair dryers etc.
3. Finally run the channel scan operation on your device and once complete test the quality of the channels. It may be necessary to reposition the aerial and try again if the signal quality is low or you are receiving interference or missing channels.
